

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PART I

REPORT.

OFFICE OF THE STATE BOARD OF ASSESSORS,

TRENTON, N. J., October 31, 1903.

To the Legislature of New Jersey:

Pursuant to the provisions of the Act, entitled "An act to revise and amend an act for the taxation of railroad and canal property, approved April tenth, one thousand eight hundred and eighty-four," which revision was approved March twenty-seventh, one thousand eight hundred and eighty-eight, the State Board of Assessors herewith presents its twentieth annual report. Owing to the increasing size of this document (more than one thousand printed pages in 1902), the Board has determined to divide the report for the present year into two parts—Part I covering the valuation and assessment of railroad and canal property, with the statistical tables and other information relating thereto, and Part II showing the assessments levied against miscellaneous corporations, as well as also showing the assessments and apportionment of franchise tax levied upon corporations using or occupying the public streets or highways—under provisions of Chapter 195, Laws of 1900, and its supplements—which latter information has hitherto been given in a separate and distinct publication.

RAILROADS AND CANALS.

Assessments for the year 1903 have been levied against one hundred and seventeen railroad corporations and one canal company, the particulars and details of which assessments are fully set forth in Schedule A of the Appendix to this report.

NEW COMPANIES ASSESSED.

The corporations added to the assessment for the year 1903 are as follows:

Morris County Connecting Railroad Company, New Jersey Terminal Railroad Company and the Trenton and New Brunswick Railroad Company—all of the "Unclassified Roads."

The Warren Foundry Railroad Company, about one mile in length, which had been incorporated for business reasons by the Warren Foundry and Machine Company, of Phillipsburg, and constructed almost entirely upon the lands of the said last mentioned company, was legally dissolved by certificate filed in the Secretary of State's office December 26, 1902, and accordingly the assessment heretofore levied against the Warren Foundry Railroad Company has been omitted from the levy of this year.

The South Easton and Phillipsburg Railroad Company, which has heretofore been assessed as one of the "Unclassified Roads," has been transferred to the Central Railroad of New Jersey system.

TRACKAGE STATEMENT.

The total length of track constructed in New Jersey at the close of the year 1902 was:

	Miles.
First track	2,307.617
Second track	807.549
Third and fourth tracks.....	220.440

Of which is laid with steel rails.....	4,336.221
Of which is laid with iron rails.....	687.771
Total	5,023.992

The number of miles of canals and feeders in the State is 173.340.

The increase in the aggregate mileage of track over 1901, including all classes, is 95.873 miles.

FINANCIAL STATEMENT.

The capital stock and debt, as reported, are as follows:

Funded debt	182,288,424 00

Increase....	\$3,708,723	\$18,543 66	\$10,725 24	<u>\$29,268 90</u>

The figures above stated represent the assessments for the years 1902 and 1903 of "property used for railroad and canal purposes," as revised and adjusted after hearing the appeals of the various companies from the assessments of each of said years respectively, as provided by law, and show the very healthy increase of \$3,708,723 in valuation.

In this connection the Board desires to say that they have been subjected to the criticism that their assessments of rail-

road property for a term of years have not shown an increase in valuation commensurate with the natural and admitted improvements in this class of property—the fact being entirely ignored that property to the amount of nearly three million dollars has, during the past few years, been, by decisions of the Supreme Court, transferred from the tax levy of this Board to that of the local municipalities, thereby and to that extent reducing the valuations theretofore placed upon “property used for railroad purposes;” the most notable instances of this character being the assessment of the Jersey City and Bergen Railroad Company, aggregating a valuation of \$1,754,445.00, and the assessment of the Erie Elevator property in Jersey City—consisting of the structure itself, the pier upon which it stands, and the lands and tracks appurtenant thereto—amounting to approximately \$900,000.00. These items, together with the transfer to local assessment of the D. L. & W. Coal Yard at Twentieth and Grove streets, Jersey City; the coal yard of the same company at Nesbitt street, Newark City; the trolley line of the West Jersey & Seashore Railroad Co. in Atlantic City, not to mention numerous other items of lesser importance, will account for property valuations to the amount of at least three million dollars, which should be considered in any comparative statement of the assessments levied by this Board. A comparison of the assessments of “property used for railroad purposes” for the years 1893 and 1903 shows an increase in valuation of the difference respectively between \$218,406,065.00 and \$227,195,115.00, or say \$8,789,050.00; to this sum must be added the value of the property taken out of the levy of this Board as above stated, amounting to about \$3,000,000.00, and the result shows an actual increase of valuation between the years named of nearly \$12,000,000.00. •

CONCLUSION.

Since the presentation of its last annual report, the Board has met with a severe loss in the death of its President, Mr. John C. Rankin, Jr., who passed away March 20, 1903. At a meeting of the Board, held March 24, 1903, the following minute was unanimously adopted:

Resolved, that this Board hears with sincere regret the formal announcement of the death of their fellow member and President, John C. Rankin, Jr., who, since his connection with the Department, has, by his uniformly courteous demeanor, his prompt and punctual attendance at the meetings, and by the application of his clear-headed business principles to the work of the Board, proven himself not only an efficient State Officer, but by his personality has endeared himself to our hearts. Always kind and fatherly in his treatment of the employes of the Department, strong in his convictions, but tempering his judgment with a profound appreciation of the spirit of fairness and equity, he was indeed a man to be loved, and a colleague of whom his associates in this Board might well be proud.

The vacancy caused by the death of Mr. Rankin was filled by the appointment of Hon. Theodore Strong, late State Senator from Middlesex County, and subsequently the Board re-organized by the election of Mr. David Baird as President.

In the Appendix to this report will be found the act for the taxation of railroad and canal property, as revised and amended to date (see Exhibits A, B and C), as also the usual tabular statements pertaining to such assessments for the year 1903.

25. *And be it enacted*, That any corporation having or claiming to have any contract with the state whereby any of its property is claimed to be exempted from the taxation imposed by this act, may, at its discretion, voluntarily pay to the state from year to year such sums of money as, added to the tax now assessable against such corporation under such alleged contract, will be equal to the tax assessable against such corporation under this act in respect to the property so claimed to be exempted, and such voluntary payment shall not be construed in any proceeding or suit to be a waiver by such corporation of its said alleged contract; *provided, however*, that nothing in this section, or in this act contained, shall be construed or taken as an admission on the part of the state that any corporation is possessed of any contract or special provision of the law on the subject of taxation which may not at any time be repealed or modified by the state.

Proviso.
